

15th April 2026

Dear Parent/Carer,

C8 Enrichment Week activities – 6th July to 10th July 2026

Enrichment Week is taking place from the 6th - 10th July this year. Cohort 8 will be based in school, undertaking a variety of enriching activities designed to build resilience, teamwork and critical thinking. They will work as a Learning Group to challenge themselves in various activities/games during the week.

During the week, the learners will have access to an inflatable assault course/'It's a Knockout'. Attached is a letter outlining the expectations for usage and a waiver. Please indicate on the Google form linked below that you have read the waiver and consent for your child to use the inflatables.

You may recall in the Autumn term that a Google form was sent asking families to indicate a fun day out their child may wish to attend. This will now take place during the Enrichment Week as we were unable to find a suitable date in the calendar to run this during the Spring term. The outing will take place alongside our C9 learners. Could you please indicate on the Google form which of the two options your child would prefer so that I can organise bookings and coaches.

Please complete this Google form by Monday 27th April to allow sufficient time for bookings to be made:-

<https://forms.gle/Ctr9Zx77c9N81EXP7>

As you will imagine, running and resourcing a week like this, ensuring that the activities are as enriching and enjoyable as possible comes at a cost. However, as we are remaining in school for most of the week this year, costs will be kept fairly low. We will have further details about the week and the cost later in the summer term.

Enrichment Week is always a fantastic week, giving learners the opportunity to develop their knowledge and skills in a slightly different way to usual. I hope that all of Cohort 8 enjoy this year's activities and get as much out of the week as possible.

Yours faithfully,

Mrs Frogley
Marketing and Enrichment Leader
